

APS Research to Practice Webinar Series

October 28, 2010

Animal Hoarding: Slipping into the darkness of comorbid animal and self neglect.

(Publication in Journal of Elder Abuse & Neglect, 21(44), 307-324)

Jane N. Nathanson, LCSW, LRC, CRC
Social Work and Rehabilitation Consultant
Specialist in Human-Animal Health & Welfare
Boston, MA
617-325-4828 Email: jnncnslt@verizon.net

Outline

- I. Definition of animal hoarding behavior and conditions
- II. The Hoarding of Animals Research Consortium – Research findings
- III. Design, implementation and development of the Animal Hoarding Human Services Program

Casework findings; observation and impressions
- IV. Functional versus dysfunctional human-animal companion relationship

Significant features of animal companions
- V. Development of animal hoarding behavior – theoretical trajectory
- VI. Application of theories of self-neglect
- VII. Typology of animal hoarders
- VIII. Intervention – ethical dilemmas
- IX. Case management
- X. Coordination of community resources (task force development)
